SUMMARY

Full stack Web Developer with **4 years of software development experience** building scalable, responsive, and high-performance web applications using **React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, and modern frontend technologies**. Experienced in developing reusable components, custom hooks, state management, REST API integration, performance optimization, accessibility, and responsive user interfaces.

Strong enterprise experience in **Drupal 9/10, custom module development, Acquia Site Studio, Twig**, and CMS-driven applications, enabling end-to-end feature ownership across frontend and backend development. Passionate about writing clean, maintainable code and delivering performant user experiences in Agile environments.

SKILLS

Frontend • React.js • Redux Toolkit • React Router DOM • JavaScript (ES6+) • JSX • HTML5 • CSS3 • Tailwind CSS • Responsive Design • CSS Grid & Flexbox	Performance & Accessibility • Core Web Vitals (FCP, LCP, CLS) • Code Splitting • Lazy Loading • Performance Optimization • Accessibility (WCAG 2.1 AA) • SEO Best Practices	Drupal • Drupal 9/10 • Custom Module Development • Custom Theme Development • Drupal views • Twig • PHP • Search API • Acquia Site Studio • Composer • Drush • Multilingual Websites

PROFESSIONAL EXPERIENCE

Paragon South Asia Services, Full stack Developer 02/2026 | Pune

Full stack Developer

Rathbones Platform - Rathbones (Demo) 
Tech: *Drupal, Twig, Aquia Site-studio, JavaScript, Custom module, Custom theme.*

- Developed custom Drupal functionality to generate dynamic CSV reports across multiple content types based on complex business rules and user-defined filters.
- Built reusable and configurable components in Acquia Site Studio, enabling flexible content management and reducing development effort for content editors.
- Created custom Site Studio templates and components using Twig, HTML, CSS, and JavaScript to deliver tailored frontend experiences and business-specific functionality.
- Developed a custom Acquia Site Studio component for file selection and bulk downloads using JavaScript and browser local storage, allowing users to persist selections and download multiple files seamlessly.
- Configured and extended Site Studio style systems to create reusable design patterns and maintain consistent branding across the website.
- Implemented responsive, cross-browser compatible user interfaces using HTML, CSS, and JavaScript to ensure an optimal experience across desktop, tablet, and mobile devices.

Dassault Systemes, Software Engineering Specialist 07/2022 – 02/2026 | Pune

Frontend Engineer

People Support Platform
Tech: *React.js, Redux Toolkit, JavaScript, Tailwind CSS, React router dom*

- Designed and developed a React-based internal dashboard for HR and IT workflows, reducing issue resolution time by 30%.
- Built scalable applications using React functional components and hooks including useState and useEffect.
- Managed complex application state using Redux Toolkit for predictable and efficient state handling.
- Architected reusable components and custom hooks, improving code reuse by 35% and accelerating feature development.
- Implemented state-driven UI updates, conditional rendering, dynamic forms, and controlled components for workflow-heavy applications.
- Improved Core Web Vitals by 20–25% through code splitting, lazy loading, memoization, and rendering optimizations.
- Developed accessible WCAG 2.1 AA-compliant interfaces using ARIA roles, semantic HTML, and keyboard navigation support.
- Ensured responsive and cross-browser compatible UI across desktop and mobile devices, improving mobile usability by 20%.
- Worked closely with backend teams for API integration, frontend data handling, and asynchronous workflows.
- Participated in code reviews, frontend architecture discussions, and Agile development processes.

Full-stack Developer

Branding Platform - Branding (Demo) 
Discover Platform - Discover (Demo) 
Tech: *Drupal, Twig, Tailwind CSS, JavaScript, Custom module, Custom theme.*

- Developed and maintained CMS-driven platforms used by 4,000+ users, including branding and marketing applications.
- Built custom themes, reusable UI components, and custom modules called Brick Widget Formatter and Brick Revision Delete improving content consistency and UI reuse by 20–30%.
- Integrated Search API, filtering, and structured content, increasing content discoverability by 50%. Worked on Menu management using Big Menu (accessibility-first navigation).
- Led Drupal 9 → 10 migrations, improving maintainability and performance by 15%.
- Implemented performance and database optimizations, reducing DB size by 35% and improving page performance.
- Worked on AI POCs to automate page generation, reducing manual effort by 40–70%.

Collaboration & Workflow

- Participated in Agile/Scrum ceremonies, achieving 98% sprint completion rate.

- Conducted code reviews and maintained Git workflows, ensuring stable, maintainable production builds.

PERSONAL PROJECTS

FilmVault *🔗 , Tech: React, Tailwind CSS*

- Built a movie discovery platform using React and TMDB REST APIs.
- Implemented movie search, genre filtering, pagination, and detailed movie pages.
- Managed application state using Redux Toolkit.
- Implemented persistent watchlist functionality using browser Local Storage.
- Optimized performance through reusable components and responsive design.

FoodieGenie *🔗 , Tech: React, Tailwind CSS, AI*

- Developed an AI-powered recipe generator using Gemini AI APIs.
- Integrated asynchronous API requests with loading and error handling.
- Built responsive user interfaces using reusable React components.
- Implemented secure user-managed API key handling.

Portfolio *🔗 , Tech: React, Tailwind CSS*

- Designed and developed a modern portfolio website showcasing projects and technical skills.
- Built a responsive, component-based UI optimized for desktop and mobile devices.

AWARDS

Genius Award *🔗 , Dassault Systemes*

For innovation; improved team delivery success by 25%

Team Collaboration *🔗 , Dassault Systemes*

Recognized for Team Collaboration and cross-functional delivery excellence.

EDUCATION

B.Tech, Government College of Engineering

07/2018 – 05/2022 | Chhatrapati Sambhaji Nagar
