SUMMARY

Full stack Web Developer with **3.5+ years** of experience building performant, accessible, and scalable user interfaces using React, Redux Toolkit, and modern JavaScript. Strong expertise in component-driven architecture, UI optimization, and Core Web Vitals. Backed by solid Drupal full-stack experience, enabling seamless API integration, CMS-driven UIs, and end-to-end feature ownership.

SKILLS

React.js, Redux Toolkit, JavaScript (ES6+), JSX, HTML5, CSS3, Tailwind CSS, React Router, Responsive Design, CSS Grid & Flexbox, Drupal Theming, Core Web Vitals (FCP, LCP, CLS), Lazy Loading, Code Splitting, SEO Best Practices, Accessibility (WCAG 2.1 AA), Drupal 9/10, Aquia Site Studio, PHP, Twig, Custom Modules, Composer, Drush, Multilingual, Custom theming, Git, Agile/Scrum, CI/CD, Docker, VS Code, Redmine.

PROFESSIONAL EXPERIENCE

Developer at Paragon DCX (Feb 2026 - Present)

Full-stack Developer (Drupal)

Rathbones Platform - [Rathbones \(Demo\)](#)

Tech: Drupal, Twig, Aquia Site-studio, JavaScript, Custom module, Custom theme.

- Developed a custom script in Drupal to generate dynamic **CSV reports** across multiple content types based on specific filters and business conditions.
- Worked on **Site Studio (Acquia Site Studio)** to create and customize reusable components and styles, improving content flexibility and UI consistency.
- Implemented **custom styling and layout adjustments** using HTML and CSS to enhance frontend alignment and responsiveness.
- Collaborated with team members to understand requirements and deliver solutions within sprint timelines.

Software Engineering Specialist at Dassault Systemes (July 2022 - Feb 2026)

Frontend Engineer (React.js)

People Support Platform

Tech: React.js, Redux Toolkit, JavaScript, Tailwind CSS, React router dom

- Designed and developed a **React-based internal dashboard** for HR and IT workflows, reducing issue resolution time by **30%**.
- Built applications using **functional components and hooks**, managing local and global state using **useState, useEffect, and Redux Toolkit**.
- Architected **reusable components and custom hooks**, improving code reuse by **35%** and simplifying feature development.
- Implemented **state-driven UI updates**, conditional rendering, and controlled components for complex forms and workflows.
- Improved **Core Web Vitals by 20–25%** through code splitting, lazy loading, and optimized rendering strategies.
- Delivered **WCAG 2.1 AA-compliant interfaces** using ARIA roles, keyboard navigation, and accessible UI patterns.
- Ensured responsive, cross-browser UI, improving mobile usability by **20%**.

Full-stack Developer (Drupal)

Branding Platform - [Branding \(Demo\)](#)

Discover Platform - [Discover \(Demo\)](#)

Tech: Drupal, Twig, Tailwind CSS, JavaScript, Custom module, Custom theme.

- Developed and maintained **CMS-driven platforms** used by **4,000+ users**, including branding and marketing applications.
- Built **custom themes, reusable UI components, and custom modules called Brick Widget Formatter and Brick Revision Delete** improving content consistency and UI reuse by **20–30%**.
- Integrated **Search API, filtering, and structured content**, increasing content discoverability by **50%**.
- Worked on Menu management using **Big Menu** (accessibility-first navigation).
- Led **Drupal 9 → 10 migrations**, improving maintainability and performance by **15%**.
- Implemented **performance and database optimizations**, reducing DB size by **35%** and improving page performance.
- Worked on AI POCs to automate page generation, reducing manual effort by **40–70%**.

Collaboration & Workflow

- Participated in **Agile/Scrum** ceremonies, achieving **98% sprint completion rate**

- Conducted **code reviews** and maintained **Git workflows**, ensuring stable, maintainable production builds.
-

PERSONAL PROJECTS

FilmVault - [FilmVault\(Demo\)](#)

Tech: React, Tailwind CSS

- Movie discovery platform using **TMDB API** with dynamic search, pagination, and genre filtering.
- Implemented watchlist functionality with local storage and live updates.

FoodieGenie - [FoodieGenie\(Demo\)](#)

Tech: React, Tailwind CSS

- Built a responsive React app using **Gemini AI** to generate recipes from user inputs.
- Implemented **secure user-managed API key handling** for privacy and safety.
- Designed intuitive card-based UI and detailed recipe views.

Portfolio - [Portfolio\(Demo\)](#)

Tech: React, Tailwind CSS

- Personal portfolio showcasing projects with a clean, responsive, and minimal UI.
-

ACHIEVEMENTS

- **Genius Award** for innovation; improved team delivery success by **25%**.
 - Recognized for **Team Collaboration** and cross-functional delivery excellence.
-

EDUCATION

B.Tech — Computer Science Engineering - Government College of Engineering, Aurangabad | 2018–2022
